Dear Greg & James,

Re: Sydney Roosters 2002 Premiership, success of Body Science (BSc),

The Sydney Roosters team wish to both acknowledge and express their gratitude to BSc Body Science for their input into our success as the 2002 NRL premiers.

Your official "Shorts Sponsor" & "Supplement Sponsor" of our Club commenced at a critical time in the season.

After a three game losing streak, and one week after commencing your sports science supplements, our Round 22 win against the Brisbane Broncos proved the turning point in our season.

To announce a new senior sponsor like Body Science gave the entire club a lift not to mention giving the players the science required to maintain their performance throughout the season.

This association proved a winner with significant wins every game since, leading of course to our proud club title of "2002 NRL Premiers".

For the first time in history, the club combined its white away jumper and socks with the new white [BSc] home shorts. This generated plenty of discussion and stories of whether our success was attributed to the new sponsor Body Science's supplements, or whether you were our good luck charm. The team broke tradition with white [BSc] shorts for all remaining matches including the 2002 NRL final.

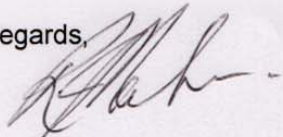

To anyone concerned, Body Science was more than just a sponsor - they were a supporter and a partner who listened to what our players and coaching staff had to say - and that's rare these days.

The players put Body Science's extensive range of supplements to the test and proved their worth! The Roosters' results demonstrated that Body Science's assistance had a positive effect on the team in terms of power, recovery and performance at the most critical period in the count down to the final series.

BSc are an integral part of the Roosters team!

Roosters Body Science 2002 Premiers
